Course Description and Relation of Class to Topic of Enhancing Life
The Camino is a pilgrimage to the Cathedral of Santiago di Compostela in northwestern Spain, where, according to tradition, the remains of the apostle St. James are buried. The 200,000 pilgrims who walk the Camino annually have diverse motivations: from the recent divorcee trying to prove her independence, to the devout Christian hoping for an increased closeness to God, to the unemployed Spaniard contemplating his next steps. However, most begin their journey optimistic that in a short period of time a substantial enhancement of life can take place through specific mechanisms, such as physical hardship and spatial displacement. Students enrolled in this course will walk upon these well-trod routes, completing over 150 miles of the popular route to Santiago in northern Spain known as the French Way. This course is intended to immerse the student into the tradition, theology, culture, and environment of pilgrimage by having them perform the actions of a pilgrim to Santiago de Compostela.

Learning Objectives:
Upon successful completion of the course, students will be able to describe the role of ritual practice in religion in enhancing life; to identify major ecclesial art and architecture along the pilgrimage route; to interpret religious art objects, relics, and church in light of their historical contexts; and to display habits of critical and appreciative understanding of people different from themselves, particularly in regards to enhancing life.

Additional Expectations:
The nature of pilgrimage requires that students be able to walk 10-15 miles a day, and that they limit the personal items they bring on the trip (these details will be outlined by the instructor in the informational sessions). Moreover, students will not be allowed to use iPods, MP3, players, cell phones or any other electronic devices WHILE WALKING on the pilgrimage routes. Students will be informed of all the necessary equipment they will need as well as all the equipment they should leave behind.
